Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner explained the distinction of the claims 7 and 11 over the prior art--specifically attributed to the claim limitation "said plurality of client computers receiving said master URL to browse to only when all of said data is loaded to said plurality of client computers". Examiner suggested incorporating this limitation into independent claim 1, thereby modifying the claim language of claim 1 to replace "completely distributed" with "loaded". Applicant agreed to and authorized the Examiner to amend the claim language accordingly.
